

TimeWorksTouch®

Intelligent, interactive clocks powered by the leading cloud-based timekeeping service TimeWorksPlus

TimeWorksTouch combines the latest in time clock technology with industry-proven, cloud-based time and attendance services. Streamline punch and payroll activities with greater accuracy to give managers powerful labor management and cost control tools.

Timekeeping Made Easy

TimeWorksPlus provides these benefits for those regularly pressed for (and by) time.

Payroll/HR Managers

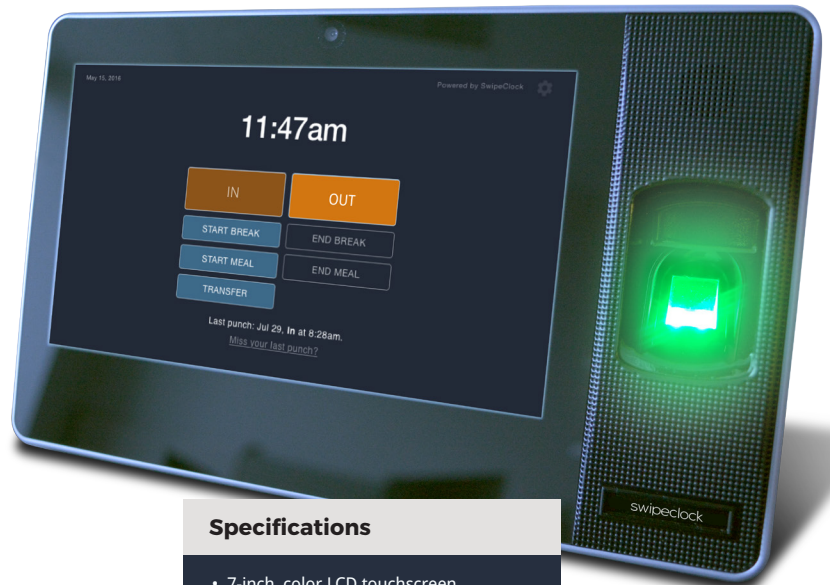

Eliminate missed and unmatched punches, auto-sync timekeeping and payroll systems and significantly reduce processing time. Accommodate customized pay rules, compliance requirements and employee types.

Supervisors

Immediate insight and tools for absence and overtime management, leave planning, compliance, notifications and time card approvals.

Employees

Simplified and accurate punching, self-service approvals and time card visibility.
